vueschool.io

beginner + masterclass 2024

JS certification

[Openclassroom](https://openclassroom.com)

beginner + advanced - 2022

BTS Sales & CRM

[ISEG](https://www.iseg.fr)

2010-2012

LANGUAGES

French: Native

English: Professional (C2)

OBJECTIVE

A code explorer from the digital analytics world, I am moving into web development with a genuine passion for JavaScript, front end and back end alike.

Versatile, I pair an analyst's rigour with creativity to build applications that answer business and user needs precisely.

EXPERIENCE

SENIOR TECHNICAL CONSULTANT – DIGITAL ANALYTICS

OPTIMAL WAYS – August 2020 - December 2024

- End-to-end project ownership (autonomy on contract renewals)
- Data analysis, quality assurance, analytics strategy and UX consulting
- Tooling for data integration and processing (JS, Node.js)
- Processing of collected data in BigQuery (GCP) and Azure Cloud.
- Analytics tool integration and migration: GA, Piano, Adobe
- Built the agency's internal information system
- Team management: planning, internal/external training and onboarding of new team members

Clients: Midas, Cyrillus, Armand Thiery, Brady Seton, Mobalpa, Brico-Dépôt, Decathlon France/Switzerland/Singapore/PRO

APPLICATION MANAGER (RUN & MAINTENANCE)

IDKIDS GROUP – January 2019 - August 2020

- Requirements gathering with the "e-commerce" business teams, use-case writing
- Sprint planning and task prioritisation with the development teams
- Database extractions for the management control team
- Handling of priority customer-service issues (run / L2 support)
- On-call duty and quality assurance during production releases

DATA CONSULTANT (clients: KingFisher, IDKIDS Group)

WEB TRANSITION – February 2018 - January 2019

SUPPORT TECHNICIAN L2 - BareMetal / Cloud servers

OVH CLOUD – January 2015 - January 2018

- Triage and prioritisation of critical incidents with DevOps and SysAdmin teams
- Remote work on servers (Proxmox, VMware, SSH)
- Phone troubleshooting for non-hosted customers
